

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Section 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same, That the time during which game of this Commonwealth may be legally killed, caught or trapped shall be known as the open season, and the time during which game may not be legally killed, caught or trapped shall be known as the close season for game in this Commonwealth, and in the designation of seasons and other periods under this act and under all other laws of this State for the protection of game, such season or period shall include the first day or date mentioned in the designation, but shall not include the last date mentioned.

Section 2. The following shall be considered game birds in this Commonwealth: The Anatidae, commonly known as swans, geese, brant and river and sea ducks; the Rallidea, commonly known as rails, coots, mud-hens and gallinules; the Limicolae, commonly known as shore-birds, plovers, surf-birds, snipe, woodcock, sandpipers, tattlers and curlews; the Gallanea, commonly known as wild-turkeys, grouse, prairie-chickens, pheasants, partridges and quail; the Columbæ, commonly known as doves and wild-pigeons. and the birds known as reed-birds and black-birds.

No law of this Commonwealth shall be so constructed as to prevent the keeping of birds imported from foreign countries, their offspring raised in captivity, canaries or any other birds of a species not found in a wild state in this Commonwealth in cages as domestic pets, or the possession of the tanned or cured skin or any part thereof of a game quadruped or wild bird of any kind legally taken in this Commonwealth or brought into this State from any other State or country from which the same has been legally taken or exported.

Section 4. The game laws of this Commonwealth shall not be construed to apply to any public zoological garden of the State, or to any public institution of the State wherein animals or birds may be maintained alive for educational purposes or for the purposes of scientific study or experiment, or to the Board of Game Commissioners of this State, or to its duly authorized agent or agents acting for the State, or to any other person holding a certificate issued by the Board of Game Commissioners authorizing the holder thereof to take birds, their nests and eggs for strictly scientific study, in which case the holder of such certificate shall be limited to the rights and privileges therein named. The said Board of Game Commissioners shall be empowered to grant certificates at their discretion authorizing the holder thereof to take birds, their nests and eggs for strictly scientific study or for propagating purposes within this State in accordance with the following provisions: A certificate to be known as an ordinary certificate may be granted by the Board of Game Commissioners to any properly accredited person of the age of sixteen years or upwards residing in this Commonwealth, permitting the holder thereof to collect wild birds other than game birds, their nests and eggs within this Commonwealth for strictly scientific study, but not for sale or exchange or shipment from or removal out this Commonwealth without the written consent of the president of the Board of Game Commissioners. The number of birds that may be taken under a certificate of this character shall be limited to eight of each species with nests to the number of two, and the eggs found therein. Said applicant shall pay to the secretary of said board the sum of five dollars for its use, and shall file a duly executed bond properly secured in the sum of one hundred dollars, conditioned

for the faithful performance upon the part of the principal therein named of all the requirements of this section relative to the granting of this certificate. Upon the conviction of the principal therein named of having violated any of the provisions of this section relative to this certificate, the bond shall be forfeited to the Commonwealth of Pennsylvania for the use of the Board of Game Commissioners and the certificate become void. Such certificate shall be in force for a period of one year from the date thereof, and shall not be transferable. A certificate, to be known as a special certificate to take birds for strictly scientific study, may be issued by the Board of Game Commissioners, and shall be controlled by the same conditions and requirements as the ordinary certificate except that such certificate may be issued only to a person of known scientific attainments in ornithology, in which case the holder thereof shall be authorized to take the wild birds of this State without limitation for strictly scientific study or experiment, but not for sale or exchange or shipment from or removal out of this State without the written permission of the president of the Board of Game Commissioners. Persons taking birds, their nests and eggs without having a certificate as required by this section, or having a certificate and taking a greater number of birds, nests or eggs than is permitted herein to persons licensed hereunder shall be subject to the penalties prescribed by existing law.

A certificate, to be known as a propagating certificate, may be issued by the Board of Game Commissioners to any accredited citizen of the Commonwealth of the age of twenty-one years or upwards, permitting the holder thereof and his assistants to breed or raise game quadrupeds or game birds of any kind in this Commonwealth, or both or either, and to sell the same alive for propagating purposes only under the following restrictions and regulations: Any person desiring to operate a propagating plant for game in this Commonwealth shall file with the secretary of the Board of Game Commissioners at Harrisburg a petition asking for the privilege; he shall also file a description of the premises to be used for such purpose, with its location, and shall accompany the same with the written statement of at least two well known citizens of the community in which he may reside certifying to his good character and fitness to be intrusted with such privileges. Upon notification of the favorable consideration of this petition by the Board of Game Commissioners he shall pay to said secretary for the use of said Board the sum of five dollars and file a duly executed bond, properly secured, in the sum of five hundred dollars, conditioned for the faithful keeping upon the part of the principal therein named and his employes upon said premises of all the provisions of this section and all other game laws of this State. He shall keep a just and true account in a book to be kept for that purpose only of all game raised on said premises of all game brought to said premises from outside of the State, the number of birds or animals with the time they were received, the place from whence they were shipped, and the name of the shipper. He shall keep a strict account of all game sold, its character, the number of birds or quadrupeds, the time and manner of shipment, with name and address of purchaser, and in every instance shall demand and receive before shipment an

affidavit from the purchaser thereof, setting forth the fact that the game thus purchased is intended only, and will be released for strictly propagating purposes within this Commonwealth. Each affidavit thus procured shall belong to and be the property of the Board of Game Commissioners, and shall be filed with them by the owner of such propagating plant, together with an itemized statement from the before named book account at the close of every three months beginning with the date of his certificate. This book, together with the premises described and all game thereon, shall be open to inspection upon demand of any member of the Board of Game Commissioners of this State or any game protector holding a commission from said board. All boxes or crates or packages of any description in which game may be shipped or removed from said premises shall, before removal therefrom, have attached thereto a card, to be supplied by the Board of Game Commissioners, upon which shall be plainly written in the blank spaces left for that purpose the name and address of the purchaser, with the contents of the box, crate or package. No other card or marking of any description shall be used. The certificate herein provided for shall be good for one year from the date thereof and shall be transferable only at the discretion and under conditions that may be prescribed by the Board of Game Commissioners. The bond hereinbefore provided for shall be forfeited to the Commonwealth for the use of the Board of Game Commissioners, and the certificate become void upon the conviction of the principal therein named, of having violated any of the provisions of this section or of having knowingly or negligently permitted any one to violate any of the game laws of this Commonwealth on said premises. All game in possession under control of or owned by the operator of such propagating plant at the time of such conviction shall be forfeited and become the sole property of the Board of Game Commissioners, to be distributed at their discretion within this Commonwealth. No operator of a propagating plant of this description within this Commonwealth shall be denied a new certificate, except for violation of some provision of this act.

No law of this State shall be held to prevent the Board of Game Commissioners through their authorized agents from destroying wild birds, animals destructive of game, in such manner as they may direct.

All work done under the provisions of this act shall be by contract, according to plans and specifications to be prepared by the State Highway Commissioner as hereinbefore provided and in awarding the contracts the work shall be given to the lowest and best bidder with the option upon the part of the State Highway

Commissioner to reject any or all bids, if the prices named are materially higher than the estimated cost of the work as provided for. Every person, firm or corporation, before being awarded any contract for the construction or improvement of any highway under the provisions of this act shall furnish a bond acceptable to the State Highway Commissioner in a sum equal to the contract price of the work conditioned upon the satisfactory completion of the same and to save harmless the State, county and the township or townships in which the work may lie from any expense incurred through the failure of said contractor to complete the work as specified or for any damages growing out of the carelessness of said contractor, or his or its servants.

Section 12. Advertisements for proposals for the reconstruction or improvement of highways under the provisions of this act shall be given by the State Highway Commissioner at least twenty days before the contracts may be awarded by public notice in at least two newspapers of general circulation in the county in which the highway to be improved is located, such advertisement to designate where the plans and specifications may be had and the time and place of the reception of bids and the letting of the contract. The State Highway Commissioner may in his discretion, insert the same advertisement in other papers.

Section 13. Any township may, through its supervisors or commissioners, be authorized to bid for the construction of such portion of any highway improvement undertaken under the provision of this act as may lie within its limits and any township submitting such bid shall have the same consideration as other bidders and if awarded the contract shall fulfill the same and be subject to the same regulations as are laid down for other bidders.

Section 14. Every contract authorized to be made by the State Highway Department under the provisions of this act shall be made in the name of the Commonwealth of Pennsylvania and shall be signed by the State Highway Commissioner and attested by the chief clerk of the Department and shall be approved as to form and legality by the Attorney General or Deputy Attorney General of the Commonwealth. No contract for any highway improvement shall be let by the State Highway Department nor shall any work be authorized under the provisions of this act, until the written agreement of the county commissioners of the county and the supervisors or commissioners of the township or townships in which said proposed improvement is to be made, agreeing to assume their respective shares of the cost thereof as hereinbefore provided shall be on file in the office of the State Highway Department and shall have been approved as to form and legality by the Attorney General or the Deputy Attorney General of the Commonwealth.

Section 15. Upon the completion of any highway rebuilt or improved under the provisions of this act, the State Highway Commissioner shall immediately ascertain the total expenses of the same and apportion the said total expense between the State, the county and the township or townships, in the proportion hereinbefore provided and in case the said improved highway shall extend into or through two or more townships, he shall apportion the proportion of the expense aforesaid to be borne by each township among the

several townships in the same proportionate parts as the cost of the improvement within each township, shall bear to the whole expense of the improvement which has been made according to the provisions of this act and the said State Highway Commissioner shall certify the total expense of said improvement to the State Treasurer, the county commissioners and the supervisors or commissioners of the township or townships in which the improved highway has been constructed, respectively, as hereafter provided specifying the amounts to be borne by the State, the county and the township, or each township.

Section 16. The Commonwealth of Pennsylvania shall not be liable to any person or corporation for damages arising from the rebuilding or improvement of any highway under this act, nor shall the State engage to keep such highway in repair after the same shall have been rebuilt or improved, except to extend the aid in maintenance herein provided. In case any person or persons or corporations shall sustain damage by any change in grade or by the taking of land to alter the location of any highway which may be improved under this act, and the county commissioners and the parties so injured cannot agree on the amount of damages sustained, such persons or corporations may present their petition to the court of quarter sessions for the appointment of viewers to ascertain and assess such damage, the proceedings upon which said petition and by the viewers shall be governed by the laws relating to the assessment of damages for opening public highways, and such damages, when ascertained, shall be paid by the respective counties and afterward apportioned by the State Highway Commissioner according to the provisions of section fifteen.

Section 17. Where a portion of an important main highway traversing one or more townships, and for the improvement of which, according to the provisions of this act, application has been made by said township or townships, shall lie within the limits or traverse any borough or boroughs to improve the said highway, would leave a break or unimproved section in a continuous improved highway, it shall be lawful for the county commissioners of the county in which said highway is located to enter into an agreement with said borough or boroughs to bear a portion of the expense of said improvement of the highway within the borough limits in the same manner as is herein provided for co-operation between the counties and townships. Provided, that an improved road shall have been previously constructed in an adjoining township or borough to the line of the borough making application. The State Highway Department may, if the State Highway Commissioner so recommends, bear a portion of the expense of said improvement of said highway within said borough limits, but in no case shall the portion of said expense to be borne by the State exceed seventy-five per centum of the total expense of said improvement. Boroughs shall only receive aid from the State as aforesaid in cases where failure to receive such aid would prevent a continuous improvement of an important main highway. Provided, that any borough which is willing to pay the one-fourth the cost of constructing any such road as hereinbefore mentioned may make application direct to the State Highway Department. All improvements made in boroughs,

highways as herein provided shall be of a character similar to that specified for the township or townships through which the highway to be improved passes in reaching said borough and boroughs, and the plans and specifications for the work shall be approved by the State Highway Department, and the completed work shall be approved by said department before any warrant shall be issued for the State's share in such improvement as herein provided. It shall be the duty of the proper officers of said borough or boroughs charged with the maintenance of the streets and highways of said borough or boroughs to keep and maintain said improved highway within the borough limits in a condition to conform to the standard established by the State Highway Department for the maintenance of similar highways.

Section 18. The total expense of highway improvement or maintenance under the provisions of this act shall be paid by the State Treasurer upon the warrant of the State Highway Commissioner, attested by the chief clerk of the State Highway Department, out of any specific appropriations made by the Legislature to carry out the provisions of this act. The share of the county in which said highway improvement as herein provided has been made shall be paid to the State Treasurer by the county treasurer upon the order of the county commissioners. The share of the township or townships or of the borough or boroughs in which the said highway improvement as herein provided has been made shall be paid to the State Treasurer by the township supervisors or commissioners or by the borough treasurer, respectively, as other debts of said township or borough are paid. Upon the completion of any highway improvement the State Highway Commissioner shall certify to the State Treasurer and to the county commissioners and township supervisors or borough authorities, as the case may be, the respective shares of said county and township or borough. If the said shares of county and township or borough, either or both of them shall not be paid to the State Treasurer within thirty days after being certified to by the State Highway Commission as hereinbefore specified, then the said shares of county and township or borough, either or both of them remaining unpaid shall be charged by the State Treasurer against any funds of said county which may be in the hands of the State Treasurer or which may thereafter come into his hands. The amounts paid under this act to the State Treasurer by counties, townships and boroughs shall be placed by him to the credit of the fund for road construction. The State Highway Commissioner may make partial payments to any contractor performing any highway improvement as the same progresses, but not more than seventy-five per centum of the contract price shall be withheld until the work is satisfactorily completed and has been accepted by the State Highway Commissioner.

Section 19. The word "highway" as used in this act shall be construed to include any existing causeway or bridge or any new causeway or bridge, or any drain or watercourse which may form a part of a road, and which might properly be built according to existing laws by the township or townships, but shall not include causeways or bridges which should properly be built by a county or by the State.

Section 20. All highways or portions of highways constructed or improved under the provisions of this act shall thereafter be known as the "State highways," but so far as the same may be within the limits of any township shall be kept in repair, so that they may be maintained at the standard of condition prescribed for highways of their class by the State Highway Department at the expense of said township, but the supervisors or commissioners of any township possessing improved highways may ask for and receive State aid for the maintenance of the same, as hereinafter provided. It shall be the duty of the supervisors or commissioners of every township in which said State highways may lie to maintain the same generally at a reasonable standard prescribed for such roads by the State Highway Department. Provided, that no street railway shall hereafter be constructed upon any portion of a highway which has been or may be hereafter improved under the provisions of this act, except under such conditions and regulations as may be prescribed by the State Highway Commissioner. Any person who shall by the use of rough-locks or drag-locks upon wagon wheels or by any other method or in any other manner wilfully or maliciously destroy or damage any improved highway in this Commonwealth shall be deemed guilty of a misdemeanor, and upon arrest and conviction therefor shall pay a fine of ten dollars for each and every offense, which fine shall be recoverable as in similar cases upon complaint of any person before a justice of the peace, and the fine so recovered shall be paid to the supervisors of the township wherein the offense was committed for the use of the road fund of said township.

Section 21. All highways improved under the provisions of this act shall require the construction of a macadamized road or a telford or other stone road, or a road constructed of gravel, cinder, oyster shells or other good materials, in such manner that the same of whatever material constructed will, with reasonable repairs thereto at all seasons of the year, be firm, smooth and convenient for travel. The county commissioners shall have the authority to select the kind of materials to be used in improving any road under the provisions of this act. Any difference of opinion that may arise between the county commissioners and the township road authorities as to the kind of a road to be built shall be decided by the State Highway Commissioner. The State Highway Commissioner shall furnish to the county commissioners and township road authorities information as to the probable cost of improved highways as defined in this section.

Section 22. Ten per centum of the amount available for highway purposes under the provisions of this act shall be set aside for the purpose of maintenance of highways as hereinafter provided, and shall be apportioned by the State Highway Commissioner among the townships or counties applying for the same in proportion to the mileage of improved highways, made under the provisions of this act, or which have already been made, or may hereafter be made at the expense of such townships or counties, and which are of the standard prescribed by the State Highway Department for improved highways.

Section 23. Whenever the supervisors or commissioners of any township or county shall desire State aid for the purpose of maintenance of improved highways, whether State highways improved under the provisions of this act or otherwise, it shall be the duty of said supervisors or commissioners to file with the State Highway Department on or before the first day of May in each year a sworn petition, requesting such State aid, and setting forth the number of miles of highways improved according to the standards of the State Highway Department in said township, and the cost of the same to said township, together with the condition of said improved highways and the average annual cost of maintaining the same. In cases where State aid is given for maintenance of any highway, the said supervisors or commissioners shall include in their next annual application for State maintenance aid a sworn statement, showing in detail the manner in which the aid previously received was expended. The State Highway Commissioner, if in his judgment the conditions warrant the co-operation of the State in maintaining said highways, shall apportion to said township or county its proportion of the total amount available for the maintenance of improved highways as hereinbefore provided, and the said amount shall be paid to the said supervisors or commissioners by warrant of the State Highway Department, but in no case shall the amount thus given by the State for maintenance be more than one-half the amount which, in the judgment and experience of the State Highway Commissioner, the annual cost of maintaining improved highways of the standard of construction prevailing in such township or county should be, nor more than one-half the sworn average annual cost of maintenance as set forth in the petition of the supervisors or commissioners of said township or county.

Section 24. County commissioners or county engineers of the several counties of this State and the officers of all cities, boroughs and townships in the State who now have or may hereafter have by law authority over the public highways and bridges shall, upon the written request of the State Highway Department furnish said department with any information relative to the mileage, cost of building, and maintenance, condition and character of the highways under their jurisdiction, and with any other needful information relating to the said highways.

Section 25. In addition to his other duties the State Highway Commissioner shall cause to be made a complete survey of all the roads in the State, and shall cause to be made and kept for the State Highway Department a general highway plan of the State, and compile statistics and collect information relative to the mileage, character and condition of the highways in the townships and counties of the State. He shall investigate and determine upon the various methods of road construction best adapted to the various sections of the State and establish standards for the construction and maintenance of highways in the various sections, taking into consideration the topography of the country, the natural conditions and the character and availability of road building material and the ability of the townships and counties to build and maintain roads under the provisions of this act. He may at all reasonable times be consulted by county, city, borough or township offi-

cers having authority over highways and bridges, and shall, when requested, advise and give information to such officers relative to the construction, repairing, alteration and maintenance of the said highways and bridges. He shall at all times lend his aid in promoting improvement throughout the State and shall prepare and disseminate useful information relative to road building and improvement.

Section 26. The sum of six millions three hundred and fifty-six thousand two hundred and thirty-two dollars and forty-seven cents is hereby appropriated to carry out the provisions of this act. Commonwealth of Pennsylvania,
Executive Chamber,
Harrisburg, March 30, 1905.

To the Honorable, the Senate of the Commonwealth of Pennsylvania.

Gentlemen: I return herewith, without my approval, Senate bill No. 35, entitled "An act for the Prevention of Idiocy."

This bill has what may be called with propriety an attractive title. If idiocy could be prevented by an act of Assembly we may be quite sure that such an act would have long been passed and approved in this State, and that such laws would have been enacted in all civilized countries. The subject of the act is not the prevention of idiocy, but it is to provide that in every institution in the State entrusted with the care of idiots and imbecile children, a neurologist, a surgeon and a physician shall be authorized to perform an operation upon the inmates for the prevention of procreation. The title is imperfect because it does not clearly set forth this purpose. What is the nature of the operation is not described, but it is such an operation as they shall decide to be "safest and most effective." It is plain that the safest and most effective method of preventing procreation would be to cut the heads off the inmates, and such authority is given by the bill to this staff of scientific experts. It is not probable that they would resort to this means for the prevention of procreation, but it is probable that they would endeavor to destroy some part of the human organism. Scientists, like all other men whose experiences have been limited to one pursuit, and whose minds have been developed in a particular direction, sometimes need to be restrained. Men of high scientific attainments are prone in their love for technique to lose sight of broad principles outside of their domain of thought. A surgeon may possibly be so eager to advance in skill as to be forgetful of the danger to his patient. Anatomists may be willing to gather information by the infliction of pain and suffering upon helpless creatures, although a higher standard of conduct would teach them that it is far better for humanity to bear its own ills than to escape them by knowledge only secured through cruelty to other creatures. This bill, whatever good might possibly result from it, if its provisions should become a law, violates the principles of ethics. These feeble minded and imbecile children have been entrusted to the institutions by their parents or guardians for the purpose of training and instruction. It is proposed to experiment upon them, not for their instruction, but in order to help society in the future. It is to be done without their consent, which they can not give, and without the consent of their parents or guardians, who are responsible for their welfare. It would be in contravention of the laws which have been enacted for

the establishment of these institutions. These laws have in contemplation the training and the instruction of the children. This bill assumes that they cannot be so instructed and trained. Moreover, the course it is proposed to pursue would have a tendency to prevent such training and instruction. Everyone knows whether he be a scientist or an ordinary observer that to destroy virility is to lessen the capacity, the energy and the spirit which leads to effort. The bill is, furthermore, illogical in its thought. Idiocy will not be prevented by the prevention of procreation among these inmates. This mental condition is due to causes, many of which are entirely beyond our knowledge. It existed long before there were ever such inmates of such institutions. If this plan is to be adopted, to make it effective it should be carried into operation in the world at large, and not in institutions where the inmates are watched by nurses, kept separate, and have all the care which is likely to render procreation there are very rare, if not altogether impossible. In one of these institutions, I am reliably informed, there have only been three births in ten years. A grave objection is that the bill would encourage experimentation upon living animals and would be the beginning of experimentation upon living human beings, leading logically to results which can readily be forecasted. The chief physician in charge at Elwyn has candidly told us in an article recently published upon "Heredity" that "Studies in heredity tend to emphasize the wisdom of those ancient peoples who taught that the healthful development of the individual and the elimination of the weakling was the truest patriotism—springing from an abiding sense of the fulfillment of a duty to the State." To permit such an operation would be to inflict cruelty upon a helpless class in the community which the State has undertaken to protect. However skillfully performed, it would at times lead to peritonitis, blood poisoning, lockjaw and death.

For these reasons the bill is not approved.

SAM'L W. PENNYPACKER.

The foregoing message having been read,

And the question being,

Shall the bill pass, the objections of His Excellency, the Governor, to the contrary notwithstanding?

A motion was made by Mr. Scott,

That the question, together with the further consideration of said message, be postponed for the present.

Which was agreed to.

To the Senate and House of Representatives of the Commonwealth of Pennsylvania:

We, the undersigned, Commissioners of the Commonwealth of Pennsylvania, to meet with a similar Commission on the part of the State of New Jersey, for the purpose of securing co-operation on the part of said State of New Jersey with this Commonwealth in the maintenance and operation of the fish hatchery located at Torresdale, so far as the propagation of shad and other river fishes is concerned, and in securing concurrent fishery laws by the two States, governing and regulating fishing in the Delaware river, beg leave to make the following interlocutory report:

That in pursuance of the joint resolution approved March one, Anno Domini, one thousand nine hundred and five, and after having met and duly organized, we communicated with the authorities of said State of New Jersey, in pursuance of which, said State, by due and proper enactment of its Legislature, created a Commission similar to this one, to co-operate with this Commission for the purposes aforesaid on behalf of said State of New Jersey. That this Commission, after several meetings with said Commission on the part of the State of New Jersey, at Philadelphia, in the State of Pennsylvania, and at Trenton, in the State of New Jersey, have been

able to agree with said Commission on the part of the State of New Jersey, upon a bill to be enacted into a law by the Legislatures of the two States, thus securing concurrent fishery legislation regulating and governing fishing in the Delaware river, a copy of which bill, following this report, will be read in place, and presented for enactment into law by the present Legislature.

That the Legislature of the said State of New Jersey has appropriated the sum of two thousand five hundred dollars for the purpose of co-operating with the State of Pennsylvania in the maintenance and operation of the fish hatchery at Torresdale, in accordance with the request of this Commission.

That said Legislature, having adjourned on March thirtieth, one thousand nine hundred and five, did not have the necessary time in which to pass and enact into law the aforesaid bill after the same had been agreed upon, and therefore the enactment of the same by the Legislature of said State of New Jersey has been delayed until the next session of said Legislature, which occurs in one thousand nine hundred and six, at which time this Commission is assured said State will enact said bill into law.

That representations came to this Commission from the States of New York, Delaware and Maryland, that they also desire to become parties in the arrangement with Pennsylvania for concurrent fishery legislation, regulating and controlling fishing in said Delaware river, where the same is the dividing line between Pennsylvania and said States, respectively.

The Commission makes this interlocutory report for the reason that it understands that its duties are not ended until the desired legislation is secured, or until a reasonable effort to secure the same fails.

The Commission suggests that the sum of \$3,000.00 or so much thereof as may be necessary in addition to the sum already appropriated for the purposes of this Commission be inserted in the general appropriation bill, and that the same, or so much thereof as may be necessary, be available for the uses of this Commission in securing concurrent legislation with the said States of New York and Delaware, similar to the legislation proposed in the bill aforesaid, agreed upon between this Commission and the said Commission on behalf of the State of New Jersey.

SAM'L W. PENNYPACKER.

Commonwealth of Pennsylvania,
Executive Chamber,
Harrisburg, Pa., April 10, 1905.

To the Honorable, the Senate of the Commonwealth of Pennsylvania:

Gentlemen: I return herewith, without my approval, Senate Bill No. 18, entitled "An Act to amend an act, entitled 'An act to amend clause two of section thirty-one of an act, entitled 'An act to provide for the incorporation and regulation of certain corporations,' approved the twenty-ninth day of April, Anno Domini one thousand eight hundred and seventy-four, providing for increased rates of toll upon bridges in certain cases,' approved the sixth day of May, Anno Domini one thousand eight hundred and eighty-seven authorizing an increase of said tolls in certain other cases."

There are a number of fatal objections to this bill. Its purpose is to amend an act and in the enacting part of the bill there is no description of the act which it is intended to amend. While purporting to be a general bill, it is plain that it is an instance of special legislation. The amendment applies only to a case where there is a bridge over a creek or river more than two thousand feet in width, where a charter had been granted by the Legislature to a bridge company authorizing them to fix tolls as the board of directors may determine, where the bridge has been destroyed by some casualty, where for a period of five years the bridge had not been rebuilt and where another company has obtained a charter for the erection of a bridge near the same site. It is extremely unlikely

that this combination of circumstances could have occurred in more than one instance. The important part of the proposed amendment is a provision, "that where any bridge erected over any creek or river exceeding two thousand feet in width under special charter authorizing such rate of tolls as the managers or board of directors may without restriction from time to time determine, shall have been or may hereafter be destroyed by fire, flood or any other casualty and shall not have been rebuilt under said charter for a period of five years any corporation created under existing laws for the purpose of erecting a bridge on or near the same site, may demand and receive tolls as may from time to time be fixed by the directors, such tolls, however, in any one year not, however, to exceed six per centum upon the actual cost of said bridge and if the sum total of such tolls in any one year be in excess of six per centum upon the actual cost of said bridge, then such excess is to be credited upon the succeeding year." This language gives the second corporation the right to erect a bridge near the same site and take tolls. There is nothing in the title to the proposed act to call attention to this grant of power. Since a charter has been held to be a contract with the State, which the State cannot set aside, no such grant of power can be made unless in some way the preceding corporation has forfeited or surrendered its rights. The bill provides that the tolls shall not in any one year exceed six per centum upon the actual cost of the bridge. This language prohibits the directors from taking such tolls. The prohibition, however, is at once abrogated by the direction that such tolls may be taken, but the excess is to be credited to the succeeding year. The two provisions are incongruous. It is also plain that while there is an apparent effort to restrict the taking of tolls, in reality there is no restriction whatever. The excess over six per centum is to be credited to the succeeding year. When that year arrives, the excess is again to be credited to the next succeeding year and so on ad infinitum.

For these reasons the bill is not approved.

SAM'L W. PENNYPACKER.

The foregoing message having been read,

And the question being,

Shall the bill pass, the objections of His Excellency, the Governor, to the contrary notwithstanding?

A motion was made by Mr. Heidelbaugh,

That the question, together with the further consideration of said message, be postponed for the present.

Which was agreed to,

A motion was made by Mr. Stober,

To the Honorable, the Senate of the Commonwealth of Pennsylvania:

Laid on the table.

Commonwealth of Pennsylvania,
Executive Chamber,
Harrisburg, April 12, 1905.

To the Honorable, the Senate of the Commonwealth of Pennsylvania:

Gentlemen: I return herewith, without my approval, Senate bill No. 210, entitled "An act in relation to railroads under lease, and saving their charters and franchises from forfeiture or impairment

in case of failure of their lessees to maintain and operate any portion of their lines."

This bill provides "that whenever any railroad belonging to a company organized under any general or special law of this Commonwealth is under lease to another railroad company no failure on the part of the lessee to maintain or operate any portion of said railroad shall work a forfeiture or any impairment of the chartered rights or franchises of the lessor, provided that this act shall not apply to passenger railway companies." The act of 19th February, 1849, section nineteen, provides that "if, after completion, the said railroad shall be suffered to go into decay and be impassable for the term of two years, then their charter shall be null and void." In most special acts of Assembly creating charters for the construction of railroads, there are similar provisions. A charter is in the nature of a contract between the State and the company which is so incorporated. It is quite clear that no failure upon the part of the lessee of the corporation, which is no party to the contract, can in any way affect such contract. The forfeiture, if it arose, would be the consequence of the failure upon the part of the lessor, the corporation, and not of the lessee. No doubt in most cases covenants are introduced into the lease to protect the lessor against the consequences of neglect or failure upon the part of the lessee. With these covenants, however, the State has nothing to do. Apart from this technical view of the bill, which would make the legislation unnecessary, the propriety of the policy of the bill may well be questioned. Since a large proportion of the railroads constructed are no longer in the possession of the original companies, but have been leased to greater corporations, the result would be in this indirect manner to repeal all the laws, or most of them, both general and special, which provide for a forfeiture in case of the abandonment of the road. As a general thing railroads when constructed extend through a considerable section of the country, their presence is an inconvenience to other land owners, and the law which provides that when abandoned their charters shall be forfeited seems to be wise.

For these reasons the bill is not approved.

SAM'L W. PENNYPACKER.

Resolved, By the House of Representatives of the Twenty-third Legislative Assembly of the Territory of Arizona, the Council concurring:

That we appeal to the justness and fairness of the members of the various State Legislatures now in session, and call upon them to request and urge their respective representatives in the Senate of the United States to give careful and just consideration to the protests and objections advanced by the citizens of the Territory of Arizona against the passage of the measure now pending before the Senate of the United States designed and seeking to make one State of the Territories of Arizona and New Mexico.

Resolved, That the Speaker of the House and President of the Council be instructed, and they are hereby directed, to send a copy of the resolution to the various State Legislatures that are now in session, 511.

Newspapers, Civic Organizations.

On motion of Mr. Herbst,

The following preamble and resolution were twice read, viz:

Whereas, It is charged by newspapers, civic organizations, clergymen's associations and grand juries in Philadelphia that vice of a most revolting character is protected by the police authorities of that city; that young immigrant girls, ignorant of the language and customs of this country, are lured into dens that exist there under police cognizance, and launched upon a career of shame; and that thousands of fictitious names are assessed from these resorts every year to be fraudulently voted on by repeaters on election day in return for permission to carry on this nefarious and unholy traffic; and

Whereas, The Chief Executive of that municipality refused to dismiss policemen or their superiors who are responsible for this

state of affairs, a condition that has excited outbursts of indignation from clergymen and Christian citizens of every denomination, such as has never before been witnessed in that city.

Therefore, be it Resolved, That a Committee of five members of the Senate, not more than one from Philadelphia, be appointed by the President pro tempore to investigate these charges, and if they are well founded and correct, to report at the present session of the Legislature such amendments to the Act of June first, Anno Domini one thousand eight hundred and eighty-five, providing for the government of cities of the first class as will in their judgment correct such evils, 711 neg.

Whereas, A bill for the abrogation of capital punishment in Pennsylvania is now pending before the General Assembly; and

Whereas, The question is one of momentous importance and devolves upon this Assembly the grave responsibility of meeting it in the manner most beneficial to the safety and well-being of the State, and

Whereas, It will be a great help to a proper and comprehensive consideration of the question to have before us what has been done in our own State, which has been done in our sister States and in other countries, with statistics, together with the opinions of the most eminent writers on the subject; therefore, be it

Resolved (if the Senate concur), That there be printed for the use of the Senate and House of Representatives one thousand copies of a pamphlet containing the following:

Whereas, The said newspapers have made no public retraction of the said charges, but some of the persons therein publicly named have denied the allegation, and the people of this Commonwealth are not informed as to whether the charges alleged are true or false, and

Whereas, The said charges, if true, not only affect the honor and dignity of the Commonwealth of Pennsylvania, but the title of the Honorable Philander C. Knox to his seat in the Senate as well. if it should be ascertained that he was in any manner cognizant of the transactions detailed; and if false, that he should be accorded the privilege of having all suspicions removed and the honor and dignity of the Commonwealth vindicated and the said newspapers be publicly branded as maligners; therefore, be it
